Q5: Assertion (A): Glacial Lake Outburst Floods (GLOFs) occur when a glacial lake suddenly releases water due to the failure of its natural dam.

Reason (R): GLOFs are short-lived but highly destructive events, with floods that last from hours to days, causing severe damage due to large downstream river discharges.

Options:

- A:** Both Assertion (A) and Reason (R) are correct, and Reason (R) is the correct explanation for Assertion (A).
- B:** Both Assertion (A) and Reason (R) are correct, but Reason (R) is not the correct explanation for Assertion (A).
- C:** Assertion (A) is correct, but Reason (R) is incorrect.
- D:** Assertion (A) is incorrect, but Reason (R) is correct.
